ILLINOIS AND INDIANA SWEEPED BY BIG FLOODS

DISASTROUS STORMS TODAY ADD TO LOSS OF LIFE, PROPERTY

CYCLONE DURING NIGHT WRECKS TOWN OF IRVINGTON, ILL., KILLING 7, 30 INJURED

HUNDREDS OF THOUSANDS FARM LANDS FLOODED—HUGE BUILDING UNDERMINED

(By United Press.) Chicago, April 17.—Storms and floods unequalled in the last half century swept Illinois and Indiana today, causing huge property loss and devastating villages and farms.

Cyclones during the night killed 7 and injured 30 at Irvington, Ill., a village of about 250, in the Illinois coal mining region. Nearly every building in the village was demolished by the storm, according to reports brought out by trainmen. The Illinois river reached the highest stage in 50 years, flooding nearly 200,000 acres of fertile farm lands, and causing damage and intense suffering among farmers driven from their homes.

Indiana rivers running bank full were further swollen by a cloud burst over the central part of the state today. In every town along the Illinois river, families were driven from their homes and were camping in tents on high ground. Heavy rain and hail storms during the night and today added to the discomfort. Danger of disease because of unsanitary conditions was being fought by physicians and health authorities.

At Beardstown, Ill., huge buildings were flooded, their foundations undermined by swift running water. Many homes collapsed. The water has reached such a high stage that no further efforts are being made to keep a log on its made course. Levees protecting valuable farm lands were reported breaking all along the course of the river, forcing farmers to flee for their lives, and taking a heavy toll of damage in livestock and property loss.

Illinois state officials of Springfield kept in close touch with the progress of the flood, sending aid and relief to communities in need. Tents, bedding and food supplies were sent to communities requesting aid. The Red Cross and Salvation Army were working in every town hit by the rising water, trying to alleviate the suffering.

7 Killed, 4 Missing
Springfield, Ill., April 17.—Seven were killed, four are missing and 18 were injured in a cyclone which struck Irvington early today, according to a report reaching Adjutant General Black. The report was made by Captain Omar Macklen of Irvington, who had been requested to send information. He said sufficient homes and buildings remained standing to shelter those who were homeless. No outside aid was required, he said.

Wire Service Crippled
New York, April 17.—Storms west of Pittsburgh seriously crippled all wire service today, the American Telephone and Telegraph company reported. It could guarantee only limited service to many cities. At 9:30 the big Philadelphia-Chicago circuit, carrying forty wires, fell down.

WATERSPOUT MILE HIGH PERILS LINER

New York, April 17.—A gigantic waterspout, over a mile high, swept down upon the Cunard liner Carmania when the vessel was three days out from port and for half an hour terrified passengers and threatened to engulf the vessel.

The story was told today when the Carmania docked at the end of a round trip to the near east. The waterspout, drawn whirling up out of the ocean, towered in the wake of the Carmania, and for a time appeared to be overtaking the vessel.

It seemed as though the great mass of twisting water actually were pursuing the Carmania, officers said. Captain Nelson quieted a near panic, and signaled for full speed ahead, and the Carmania outdistanced the great fountain, which subsided.

GERMANY AND RUSSIA SIGN TREATY RESUMING DIPLOMATIC RELATIONS

(By United Press.) Genoa, April 17.—Germany and Russia have signed a treaty here re-establishing diplomatic and commercial relations. The Genoa conference was completely overshadowed today by the official announcement of this event. George Tchitcherin, foreign minister of Soviet Russia, and Walter Rathenau, representing Germany, signed a reciprocity treaty at the Russian headquarters at Rappallo, near here.

Agreement a Bombshell
Genoa, April 17.—Disclosure of the private agreement between Russia and Germany was described as a "bombshell" by many delegates. The French delegation was particularly bitter, and maintains that Germany by renouncing her demands upon Russia, places herself outside the pale of the Genoa conference.

GOV'T SUES LINCOLN MOTOR CAR CO. FOR \$9,188,561 OVERPAY

(By United Press.) Detroit, Mich., April 17.—Suit for \$9,188,561.98 will be entered here in federal court by the United States government against the bankrupt Lincoln Motor Car company which brought \$8,000,000 at a receivers sale held recently.

The government claims the amount asked is due them on account of overpaid war contracts. Henry Ford purchased the defunct company. The suit does not effect him, and is filed against the Detroit Trust company, receivers.

Earl J. Davis, United States district attorney, said he had received papers from Washington and was preparing them for filing in court.

Indiana Doctor Dies From Mercury Poisoning Directs Fight to Recover

(By United Press.) Chicago, April 17.—Officials today started an investigation into the strange circumstances surrounding the death of Dr. Edward K. Newton, physician of Whiting, Indiana.

The doctor walked into the south shore hospital in South Chicago two weeks ago, and asked for his brother, an inmate. "I have just taken bichloride of mercury. Perhaps he can save my life," Dr. Edward said. The physician explained that he had taken poison by mistake. He said he went to get a drink of water and had mistaken the glass in which he had dissolved two tablets of bichloride of mercury.

The fight to save the doctor's life, was directed by the patient himself. He waited calmly for the end after drawing up his affairs when he saw the fight was unsuccessful. Coroners hearing of the strange death, ordered that the body be held for post mortem examination, and an investigation by police.

COAL STRIKE ENTERS THIRD WEEK; EXPECT CRISIS IN 30 DAYS

EXPECTED TO KNOW BY THEN IF NON-UNION PRODUCTION WILL SUFFICE

(By United Press.) Indianapolis, April 17.—The nationwide coal strike now in its third week, will enter the crucial stage within 30 days, union chiefs declared here today.

With all chances apparently gone for immediate government intervention, the tide of battle will be determined definitely in another month, it was said, and the turning point will be reached. Miners will know then if they have succeeded in hampering non-union production enough to assure them victory. Mine owners will know then whether they are winning in their fight for abandonment of the central competitive field as a basis for wage negotiations.

Small industries will be the first to feel the fuel shortage. Mine owners claim non-union production is satisfactory. Miners say it is slumping below the daily mark of 500,000 tons established during the first week of the strike.

Coal Production Greatly Cut

Washington, April 17.—The present mine strike has cut down coal production much more than did the great coal strike of 1919, official figures of the United States Geological Survey reveal.

The effect upon the country has been much less disastrous during the first two weeks than was the 1919 walkout.

Total coal production of both bituminous and anthracite during the first week of the present strike amounted to almost 3,793,000 tons as compared with a total of 5,590,000 tons during the first week of the 1919 strike.

Just before the strike now in effect, production was approximately 10,000,000 tons a week.

Must Keep Credit Good.
Lots of men do business on other people's money. Those who succeed learn that it's not how much business they do but how good they maintain their credit. The man who can borrow when he needs money is the man whose conduct of business is approved.—Exchange.

Picturesque Sight

One of the most picturesque sights in the world is the elephants at work in the city of Rangoon, at the mouth of the Irrawaddy river, where the logs arrive. At Rangoon the logs float in an undisturbed inlet. Here they are released from their inclosing boom chains. Then elephants take the logs out of the water and pile in the mill yards such logs as are not required for immediate sawing, and which may need to be stored for one or more years.

'BIG NAVY' MEN WIN IN HOUSE; FORCE 86,000 APPROVED

HARDING'S LETTER URGING LARGER PERSONNEL DEFEATS ADVOCATES OF 67,000 MEN

Washington, April 17.—"Big navy" forces were victorious when the lower branch of congress approved a naval strength of 86,000 men for the next fiscal year. "Little navy" members, standing for a cut to 67,000 men, were defeated by a vote of 177 to 130.

The refusal of the house to cut to 67,000 men will mean at least an additional expenditure of \$14,500,000, this amount being provided in the amendment of Representative C. N. McArthur, Oregon.

Mrs. Perno declared that she came here to meet her husband, and was lured to a Brooklyn flat where she was carried into a room and attacked by five men while the wife of another looked on and refused assistance. All that remained to tell of this grim northland tragedy were the trappers' bones, pieces of clothing and a rifle with a broken stock which was scattered over a considerable distance; but the bones of 11 huge timber wolves were found near the spot where he had been attacked, which bore a testimony of the man's fierce struggle for life against overwhelming odds, in which he shot seven and clubbed four to death. Acted as Toastmaster

An event of more than ordinary interest happened on Friday evening, April 14, when the twin boys, sons of Ed. Crust of Northeast Brainerd were raised to the sublime degree of a Master Mason.

When the degree was being conferred the three principal offices of the lodge were filled by the father and two brothers of the candidates, which added greatly to the solemnity and dignity of the degree.

Following the conferring of the work a lunch was served, by the stewards of the lodge, at which the chaplain, Rev. S. M. Kelly, presided as toastmaster. Mr. Kelly called attention to the fact that the records showed that Edward Crust had been raised to the degree of a Master Mason in Aurora Lodge No. 100 in May of 1893 and that he had served as Master of the lodge for the two years of 1901 and 1902.

James E. Crust, son of Edward Crust received the Master Mason degree in April of 1914 and served as Master of the lodge in 1919.

Robert, a second son received the Master Mason degree in August of 1911 and is now serving as Master of Aurora Lodge, while Miss Elizabeth Crust is the present Worthy Matron of the local Chapter of the Order of the Eastern Star.

A third son was raised to the degree of a Master Mason in the city of Duluth in April of 1919, the father going to Duluth to confer the degree at that time. And now with Earnest and Edward Jr. receiving the degrees in the manner they did, it is to be questioned if there is another case just like it in the records of Masonry in the United States.

Mr. Kelly congratulated Mr. Crust on seeing, what was no doubt, the desire of his heart fulfilled. Others who responded with felicitations were G. F. Mitchell, A. J. Hayes, W. A. M. Johnstone and Mr. Bronfeldt.

Others receiving the degree were, Harry Greger, Edmund Oelke and Fred M. Brooks.

REFORM HITS LITTLE FALLS

OUR near neighbor, the thriving little city of Little Falls, is in the throes of a reform wave just now, and it is claimed in a news dispatch from that city that "Des Laes, N. D., with its women municipal officers, after May 1, will not be more saintly than Little Falls, which is being visited by the annual reform wave."

This will be sure a new experience for Little Falls, the mecca of thirsty pilgrims from the restricted "Indian territory" in the "good old times"—and still known as a very "wet" town, notwithstanding the 18th amendment. But it is said that the "blind tigers" which have flourished in the town since prohibition came in are responsible for Mayor Bergheim's program of reform.

The worthy mayor demands the passage of an ordinance which would require the licensing of all places selling soft drinks. He has issued orders to the police department that all card-playing in soft drink parlors, pool and billiard halls must be discontinued. Dice games had already been stopped. Slot machines are to go out of business May 1.

These drastic reforms have of course occasioned much comment, and there is naturally a good deal of kicking in certain circles, but Mayor Bergheim has the satisfaction of knowing that he will have the backing of all good citizens in his efforts to better moral conditions in the Falls City.

WELCOME TOURISTS! TO CROW WING COUNTY

COLORADO's tourist business amounts to \$35,000,000 a year the tourist business of Maine amounts to over \$10,000,000 per annum. We can do as well if we try. Minnesota has 10,000 lakes to offer, with splendid access to the same over good roads and fine fishing when you get there. Let's get together and make a special effort to get the tourist trade and, which is most important, take care of it when we get it.

It is not difficult to make the tourist a booster for Crow Wing county's fine scenery, fine fishing, etc. Now let's make him a booster for its progressive citizenship, by giving him a most hearty welcome.

The Chamber of Commerce has on file complete and detailed information concerning every summer resort in this district. Every citizen in the city should consider himself a committee of one to direct visitors to this bureau of information and show a kindly interest in them.

Let us make Brainerd famous for its hospitality to the stranger.

THE MERCHANT MARINE PROGRAM

CHAIRMAN LASKER of the Shipping Board, in his testimony before the Merchant Marine Committee of the House, has given a powerful impetus to the administration merchant marine program. He urged that the ship subsidy bill, as it had been approved by President Harding and Shipping Board officials, be passed substantially as written. Admitting that details of the legislation may need further attention, he declared that if any essential part of it is changed it may mean the destruction of the whole.

The chairman asked the support of the agricultural interests for the bill, asserting that no one has greater reason to want an effective merchant marine than the American farmer. He stressed the need of prompt action on the legislation, as the disposition made of it would decide whether the United States was to be potent on the seas for many years to come.

LOOKING FOR GERMAN VOTES

DEMOCRATIC newspapers criticize the administration for setting up a claim for reimbursement from the Allies of the \$241,000,000 required to keep our soldiers on the Rhine. Judging from his recent Wilmington speech, Chairman Hull, of the Democratic National Committee, is out with a microscope looking for German hyphenates whose votes he hopes to influence in favor of the Democrats by pointing to our moral obliquity in refusing to join the reparations commission, yet insisting on a compensation which was no part of the Versailles treaty. But such a reimbursement was expressly provided for under the terms of the Armistice, and we look to the Allies for payment of this sum, which they will endeavor to collect from Germany.

A HEALTHFUL SIGN

NEWSPAPER readers have probably noticed that the British government is following the lead of the United States in her attitude toward loans she has made to other nations. A British note has been addressed to the French government to the effect that France must begin payments of the interest on sums advanced to her during the war. It is a healthful sign. If other debtor countries will follow the same course—each demanding interest and principal payments from the nations that owe it money—it will not be long before the people of Europe awake to their financial responsibilities and take steps to put their houses in order. Speed the day!

BUSINESS METHODS PREVAIL

THERE are no doubt many hysterical people who would like to have the United States government turn over Muscle Shoals to Henry Ford and then examine the contract made with him after he had secured possession of this very valuable property. Fortunately, however, we have now an administration in power in Washington that is not likely to "sign here," whenever told to do so. It is indeed a fortunate thing for our country that the methods of cautious business men now prevail at the national capital.

ALTHOUGH the United States has no special observer at the Genoa Conference, Ambassador Child will report the proceedings to the State Department, just as he would anything else of an international character that might occur in Italy.

Why Should He Be Surprised?

Culture will crop out. A Boston golf player writes to the Outlook telling how his caddy gave him a bit of a surprise. The golfer had placed his ball into the rough, and they had about given it up for lost, when suddenly the youngster's eye lit upon it. Did he holler, ungrammatically: "I got it, mister"? Not this lad. Raising the ball aloft, he exclaimed triumphantly: "Mirabile dictu—it's found!" —Boston Transcript.

Deserved That Doughnut.

Junior's mother was baking doughnuts, and he had been given all that was good for him. Upon asking for another it was denied him and he reluctantly went out to play. In a little while the man from the grocery came with a sack of flour on his shoulder. Junior following him into the house and saw his mother give him a nice big doughnut. He said nothing, but went out to play again. In a few minutes he rapped on the door and was invited to come in, whereupon he opened the door and said, "Hello, I am the grocery man, and here is your groceries, now where is my doughnut?"

There Was a Reason.

Jimmy was visiting his aunt, who was a good cook, and he enjoyed every meal. One day after an unusually good dinner he glanced at his three cousins, who were fat and rosy, and said: "I know now why you got such fat kids."

Beauty in the South.

GRANDMA USED SAGE

TEA TO DARKEN HAIR

She Mixed Sulphur With It to Restore Color, Gloss, Youthfulness

Common garden sage brewed into a heavy tea, with sulphur added, will turn gray, streaked and faded hair beautifully dark and luxuriant. Just a few applications will prove a revelation if your hair is fading, streaked or gray. Mixing the Sage Tea and Sulphur recipe at home, though, is troublesome. An easier way is to get a bottle of Wyeth's Sage and Sulphur Compound at any drug store, all ready for use. This is the old-time recipe improved by the addition of other ingredients.

While wispy, gray, faded hair is not sinful, we all desire to retain our

youthful appearance and attractiveness. By darkening your hair with Wyeth's Sage and Sulphur Compound, no one can tell, because it does it so naturally, so evenly. You just dampen a sponge or soft brush with it and draw this through your hair, taking one small strand at a time; by morning all gray hairs have disappeared, and after another application or two your hair becomes beautifully dark, glossy, soft and luxuriant.

R. K. WHITELEY HAS PASSED AWAY

Wis Pioneer City Engineer of Brainerd and Former County Surveyor of Crow Wing County

HE PLATTED MANY ADDITIONS

Was a Charter Member of the First Congregational Church, Father Was an Army Officer

R. K. Whiteley, age over 80, a pioneer city engineer and former county surveyor of Crow Wing county, died of heart disease at 6:15 o'clock Monday morning at his home, 703 North Fourth street.

He had been failing during the week, but seemed to recover his usual good spirits on Sunday and in the afternoon was motoring with his daughter, Miss May Whiteley. He felt ill in the evening and but 15 minutes before he died he walked about the house and to his bedroom.

Dr. R. A. Beise was called Saturday night and said Mr. Whiteley might pass away any time.

"I trust in my saviour absolutely," said Mr. Whiteley. He thought much of his church, the First Congregational, of which he was an honored charter member.

At the first sign of dissolution Monday morning, Dr. Beise was called immediately and rushed to the house. He administered restoratives, but death came and called away the sturdy pioneer.

Three Sons, Three Daughters

Mr. Whiteley was a widower, his wife having preceded him to her reward last July. He leaves three daughters, Mrs. Louis Yager of St. Paul; Miss May Whiteley of Brainerd; Miss Katherine A. Whiteley of Grand Forks, N. D. The three sons are R. H. K. Whiteley of Detroit, Mich.; Frank A. Whiteley of Minneapolis; Eugene Whiteley, located at Warren, in the Bigbee, Arizona copper district.

Early Boyhood

Mr. Whiteley's father was an army officer and his boyhood was spent at army posts and schools. The family resided several years in the nation's capitol. Mr. Whiteley was born at Fortress Monroe, Virginia. When he was 13 or 14 the family were at Baton Rouge, and later in St. Louis, Mo.

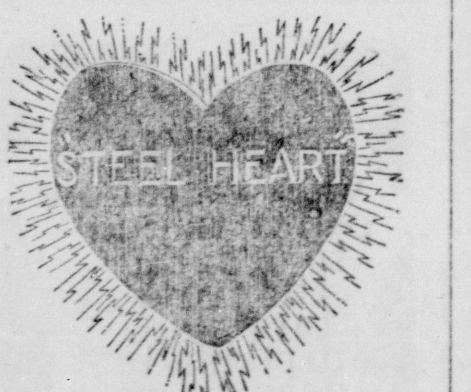

During the Civil war Mr. Whiteley held the important position of inspector of arms. Mr. Whiteley's father was an intimate friend of Robert E. Lee and shortly before the Civil war the confederacy offered him the post of chief ordnance, but he remained true to the north and discouraged any advances from his southern friends. Before leaving their southern home in Virginia, the elder Whiteley saw that Union ordnance did not fall in the hands of the south and his wife, as loyal as he to the north, sewed dispatches and other information in the lining of her dress and brought it safely through to northern headquarters.

Mr. and Mrs. R. K. Whiteley came to Brainerd in 1872, shortly after their marriage. As a civil engineer Mr. Whiteley built up a large clientele. He surveyed most of the early additions to Brainerd and did much surveying work in Crow Wing and adjoining counties. He also served later as county surveyor of Crow Wing county.

Funeral Arrangements

Funeral arrangements will be announced after consultation with relatives. His daughter, Miss Katherine A. Whiteley, who spent her Easter vacation at the home in Brainerd, has been wired and has left Grand Forks, N. D. and is expected in Brainerd Monday evening.

The deep sympathy of the community is extended the family in its sad bereavement.

Please notify The Hayden Co., Phone 810-W if you have any of our one gallon tubs and we will call for them and get them out of your way.

Barrel Opening

The annual barrel opening of the Sunday school of the First Congregational church will take place this Monday evening in the assembly room. Will those who have barrels please bring or send them at that time.

MOTHER DEFENDS SON IN DEATH

Mrs. Albert Jenest Said Supposition of Grand Forks Papers That Ed Jenest Was There Year Ago

WAS WITHOUT ANY FOUNDATION

Can Prove the Boy Was in Brainerd at That Time, Gives Dispatch Her Statement

In an interview with the Brainerd Dispatch Mrs. Albert Jenest of 809 Evergreen avenue, strong in her mother love for her boy Edward Jenest, who lost his life in Grand Forks, N. D., wished to have printed her story.

The supposition of Grand Forks papers that young Jenest was guilty of acts committed a year ago in October she declared without foundation, as she says she can prove that the boy was in Brainerd at that time.

As to linking the name of the boy with writing blackmailing letters, she states that Neil O'Brien examined the handwriting of her boy and that of the letter and that Mr. O'Brien had stated they were not the same handwriting.

She also resented the idea of coupling her boy's name with the robbery in Southeast Brainerd. This was of some months ago when a masked man entered a home, drove out a small boy and took \$5 from a chest.

"My boy's lips are sealed in death now," said Mrs. Jenest. "But I don't want him blamed for a lot of things that I know he never did."

"I am going to get a letter from the sergeant in the army where he served and it will show he had a good record there," said Mrs. Jenest in conclusion.

Through all their sad misfortune, not a single paper has spoken harshly of the parents, but all have expressed themselves that they were excellent and respectable people.

PAIR QUIZZED IN LEVANT DEATH PROBE

Duluth and Superior Police Examine Two Men in Connection With Death of Brainerd Merchant

LEVANT MAY HAVE HAD A GUN

Levant's Relatives Contend He Was Afraid of Firearms and Never Carried Weapons

According to the Duluth News Tribune two men were examined in connection with the death of Edward Levant, Brainerd merchant, who died Tuesday of gun shot wounds in Duluth. The examination failed to elicit much information.

It was revealed, however, that Levant carried a gun according to a story given to the police by Henry Ritzman, who with William White, Superior men, were with Levant during part of Monday when Levant, 314 Riches Jr., and L. H. Doty attended a party in Superior.

According to Ritzman's story, Levant informed him that he carried the gun to protect himself from blackmailers who, he said, sought \$5,000 from another Brainerd merchant.

Further search for the gun with which Levant was shot was made with an electrical magnet but nothing but old pieces of iron and steel were recovered with the instrument.

Contradicting the statement of Ritzman, Levant's relatives contend Levant was afraid of firearms and did not carry a gun. A bullet found in Levant's coat pocket was explained by them to have been placed there by another person, in an effort to cover up the crime.

EASTER SUNDAY IN BRAINERD

Churches Draw Record Crowds Brainerd Pastors Depict Last Days of Christ Upon Earth

EASTERTIDE THE KEYNOTE

Knights of Columbus Attend the St. Francis Church, Knights Templar the 1st Congregational Church. Worshippers in large groups attended Brainerd churches on Easter Sunday. All churches had special programs and the church decorations in many cases were very beautiful. Special singing was a feature of the occasion.

Brainerd pastors in sermons depicted the last days of Christ upon earth. The Knights of Columbus at St. Francis Catholic church in a body at 7:45 a. m. Two hundred members were in line.

At the First Congregational church Rev. Frederick Errington preached to the large body of Knights Templar.

The weather was not auspicious for new bonnets or gowns. Rain fell at intervals and the wind blew from the east and later switched to north, accompanied by a fall in temperature.

BREAKS up FEVER

A chiropractor would rather get a fever case than anything else. Why? Because it is a common thing for fevers to break up after one or two adjustments have been given.

Fever is excessive heat brought about by certain subluxations; as soon as the subluxations are adjusted and Nature can work normally again, the fever disappears.

"PERJURY"
WILLIAM FOX PRODUCTION.

Roberts Rinehart and Avery Hopwood.

"Perjury," the William Fox special with William Farnum which enjoyed a sensational run in a Broadway, New York theatre, will begin an engagement tonight at the Lyceum Theatre. During its run on the most famous entertainment thoroughfare in the world, New York reviewers declared that no more gripping photodrama has been shown since the presentation of William Farnum in the screen version of Victor Hugo's "Les Miserables."

Robert Moore, the hero of "Perjury," like Jean Valjean of "Les Miserables" is a kindly and lovable man who, through a shocking combination of circumstances, is compelled to serve a long term in prison. It provides the famous Fox star with wonderful opportunities to display his well-known power of expressing human emotion and pathos. Those who have seen the photoplay declare it to be unsurpassed in intense human interest.

The acting of Farnum as an active, ambitious man of forty-five, happily married and the father of two lovely children, and as a pathetic, sweet-souled old man, dazed by long imprisonment, is declared to be the most impressive and appealing of his remarkable career.

Harry Millarde directed the production. The cast includes Sally Crute as Martha Moore, Wallace Erskine, John Webb Dillon, Frank Shannon, Frank Joyner, Grace LaVell, Gilbert Rooney and Alice Mann.

Scene from Wagenhals and Kemper Production of "THE BAT" by Mary Mark this date and place well. April 20th, at the New Park Theatre.

Then and there, local theatregoers are to have the opportunity of seeing for themselves "The Bat," the biggest success in years.

"The Bat" was written by Mary Roberts Rinehart and Avery Hopwood and is presented by Wagenhals and Kemper. It has established new records for success, wherever it has been seen.

"The Bat" is a thrilling mystery story, filled with dramatic moments and interspersed with some of the rarest comedy ever seen on any stage. It is entertainment from beginning to end and defies the most jaded theatregoer to resist it.

"The Bat" comes here, presented in exactly the same careful, satisfactory manner as it was offered in New York and Chicago. It has been staged with all the care of a Broadway performance and the company speaks for itself including as it does: Lizzie Evans, William L. Thorn, Lucille Morris, Joseph M. Holicky, Charles Cahill Wilson, Arthur Hughes, Edward Pawley, Paul Huber and George Allan Wilson.

Mary Thurman
in "The Scoffer"
an Allan Dwan Production

Mary Thurman at New Park
What a difference just a few years
make.
High in the heavens of filmdom,

where movie luminaries shine with brilliance, is a new dramatic star—one who has never been seen by the world in such a role. But soon she is to blaze forth with smiles of sweetness tears that tear your heart and a sparkling personality that holds infinite charm.

Her name is Mary Thurman.

Not many years ago Mary Thurman left her Richfield, Utah, home. She had been a school teacher; but being fired with ambition to become a screen star, she abandoned her position and came to Los Angeles.

And now, after an absence of nearly two years from the silver sheet, Mary Thurman comes into her own. In the forthcoming Allen Dwan production "The Scoffer," which will be shown at the New Park tonight and Tuesday, the dainty Mary will blaze forth as a dramatic star, and we have been informed that so capable was her work in this photoplay that Mr. Dwan has already secured her consent to appear in the star roles of his next two productions.

"Queen of Sheba" Coming to Lyceum
"Queen of Sheba," the William Fox super-special which was the film sensation of New York during its spec-

tacular run at a prominent Broadway theatre, is booked at the Lyceum theatre beginning Wednesday matinee and night.

Something tremendous was expected when "Queen of Sheba" opened in New York for many stories had been published in the course of the year

through which it was being made; but audiences and critics expressed amazement as well as delight over the result.

As a spectacle the picture is declared to be unsurpassed and as the love story of the most beautiful woman and wisest man the world has known it is described as a photoplay of rare charm.

The production was directed by J. Gordon Edwards. Betty Blythe played the Queen of Sheba, Fritz Lieber King Solomon and Nell Craig the Princess Vashti, Sheba's opponent in the chariot race.

"The Girl in the Taxi"

Entirely new and strikingly different cabaret scenes were erected by Mr. and Mrs. Carter De Haven for their latest farce comedy production, "The Girl in the Taxi" released by Associated First National Pictures, Inc., and coming to the New Park Wednesday only.

A Nut Like Daddy.

The little daughter had endured evening after evening her daddy's occupation of writing and his monosyllabic replies to remarks from members of the family. Finally, when she was asked what she intended to do when she grew up, the little daughter said: "Oh, write papers and be a nut like daddy."

To All Discontented Wives

If you wives who are dissatisfied with your husbands and the conditions that surround you, want to go on being dissatisfied and unhappy, don't go to see "FOOLISH WIVES" at the NEW PARK theatre next SATURDAY and SUNDAY.

If, on the contrary, you would like to see what happens when wives stray away from their own firesides, and how a flirtation may make you as helpless as a chip on the ocean, then go by all means.

Universal has spent one million and a half dollars in the greatest motion picture ever made, to show you what happened to one foolish wife and what may happen to you. It will thrill you to your finger tips, and it may give you an insight into real happiness.

This play takes place in Monte Carlo, the gorgeous gambling palace in the south of France, in which the most accomplished villain in Europe plays the leading role. See it and then see if your husband doesn't look better to you than ever.

DOCTORS CLAIMED RECOVERY WAS ALMOST A MIRACLE!

Woman Facing Certain Death from Nervous Disorder Discovers Remedy in Time

Nervous disorders are on the increase. Men and women compelled to go out into the world to battle for a living quite often neglect their health to such an extent that a breakdown is the inevitable result.

Such neglect is criminal. In many instances it leads to fatal consequences. When you have moody spells, feel depressed, begin to have distaste for business or social duties, when you cannot sleep at night—these are sure signs of nervous ailments and should be checked.

Read below of the experience of one woman who, according to her own testimony, was

facing death, but who fortunately discovered the right remedy in time, and which brought her back to health and normal strength:

Miss Rena B. Crossland, Kempt, Queen's Co., N. S., writes: "I feel it a duty as well as a privilege, to tell of the wonderful benefits I derived from the use of Dr. A. W. Chase's Tonic Pills. In March, 1917, I had anaemia of the brain and the mental and physical suffering I endured is indescribable. I had treatment from three doctors, and for twelve days was unconscious; while for three months I was fed and cared for like an infant. My mother was so anxious for me to use Dr. A. W.

Chase's Tonic Pills that she crushed them and baked them in my food. After using two boxes I could feed myself; and after using them for two months, my health improved so rapidly that doctors and friends said my recovery was a miracle. I cannot recommend Dr. A. W. Chase's Tonic Pills too highly, even to those who seem to be facing death."

Dr. A. W. Chase's Medicines are on sale at all first class drug stores. To be sure of getting the genuine, see that portrait and signature of A. W. Chase, M.D., are on every box. This trade mark is your protection against imitations and substitutes.—Advertisement.
